Penerangan Kursus	<p>This course provides exposure to students about the involvement of parents in a child's importance as it has a very useful impact on self-development and excellence in children's education. It starts from the beginning of a married couple, the birth of the first baby and until the child develops to a more mature stage. Collaboration between teachers and parents can assist in the development and progress of children on an ongoing basis to produce outstanding and responsible citizens.</p>
